M21310 0 002					M21310	0	1	001	M21310 0 001	

Cells are highlighted that will be filled in from the form link

Formatting the overall number

Concatenate the text for serial number

Logic:

- User fills out form from landing page
- Form auto populates nomenclature and date
- Date is formatted into military format of YYYYMMDD
- Helper column logic places “Last” to generate a new number
- Year is generated from the date on the online form
